### THIRTY-FOUR PERISH

TWO VESSELS FOUNDER DURING  
A HEAVY GALE IN THE  
NORTH SEA.

BELIEVED ALL ARE DROWNED

THOSE WHO PERISHED PROBABLY  
COMPRISED ALL ON BOARD  
BOTH SHIPS.

Berlin, March 11.—A dispatch from Cuxhaven reports the loss of thirty-four lives by the foundering of two vessels—a German cargo steamer, the George Wottern, and a trawler—during a heavy gale in the North sea.

The dispatch says no further details have been received but that it is believed those drowned comprised all aboard both vessels.

FOUR BURNED TO DEATH.

Another Person Mortally Injured at  
Fires in Brooklyn.

New York, March 11.—Four persons were burned to death in Brooklyn, three in a tenement fire on Bushwick avenue, and a woman in her home. One man was mortally injured in the tenement fire.

The fire in the tenement was discovered by a tenant on the way to the cellar for coal. Within two minutes after the fire was discovered it swept up the cellar stairs and reached the air shaft. The tenants on the upper floors were cut off from the stairways.

When the firemen arrived there were more than thirty persons crowded in the front windows. Firemen carried all to the street with the exception of Mrs. Ida Bingall and her two children, and Peter Banattro.

Mrs. Bingall, with her children in her arms, attempted to make her way to the roof. She had reached the fifth floor and apparently made ineffectual efforts to raise the cover of the scuttle when she was overcome by the smoke. Banattro was injured in jumping from the building.

Mrs. Tischler, the fourth victim, lost her life in a fire that burned out her home on the third floor of an apartment house.

FIRE IN A CROWDED HALL.

Evangelist and Choir Prevent a Panic  
at Aberdeen, S. D.

Aberdeen, S. D., March 11.—While big revival services were in progress in the Auditorium at night, fire started below the platform where about 300 of the choir and preachers were sitting. The place was packed with people, fully 2,000 being present.

When the smoke was noticed, several walked out and Rev. R. E. Johnson, the leader of the revival, at once began singing. The choir took up the song and ministers went among the congregation advising them to leave quietly.

Some of the more excited people jumped through the windows, but in ten minutes the large hall was empty. Before the choir and the evangelist left the platform the rear was in flames. The firemen fought the fire for an hour, subduing it after most of the platform had burned.

Through the presence of mind of the evangelist, aided by the work of the ministers, not a single accident occurred.

FARMER AND DAUGHTER KILLED.

Another Member of the Family Fatal-  
ly Injured by Train.

Buffalo, N. Y., March 11.—Michael Bower, a well-to-do farmer, and his ten-year-old daughter Isabel were instantly killed on a crossing of the Erie railroad at Lancaster. Bower's thirteen-year-old daughter Rose is dying from her injuries.

Rose died in the hospital a few hours after. The Lackawanna railroad line was blocked by a small wreck early in the day and a fast Lackawanna passenger train was being detained over the Erie. The watchman on the crossing did not expect it and gave no warning to Bower as he drove onto the tracks.

Young Man Kills His Father.

Solon, O., March 11.—Richard Kennedy, Jr., twenty years old, struck his father with a baseball bat, killing him instantly. His father and mother were quarreling and the son came to his mother's rescue, dealing his father the fatal blow. The boy surrendered to the police.

Two Men Suffocated.

Huntington, W. Va., March 11.—W. A. Thompson, a contractor of Naugatuck, W. Va., and J. R. Clarke, a carpenter of the same place, were found suffocated in a room at the Elmwood hotel here. It appears that the men had turned on the fuel gas full force and retired.

SHOWS MARKED IMPROVEMENT.

Condition of Archie Roosevelt Is Much  
Better.

Washington, March 11.—Marked improvement is shown in the condition of Archie Roosevelt, the president's third son, who is ill with diphtheria. No official bulletins were issued during the day. Surgeon General Rixey in the evening expressed the opinion that Archie was practically out of danger so far as the diphtheria is concerned, but that the disease has left him in somewhat weakened condition. He added, however, that if no complications set in the boy should be well in two or three weeks.

A more hopeful feeling prevails at the White House regarding the sick boy than at any time since the recent setback in his condition. So gratifying was the improvement that the president and Dr. Lambert felt that they could safely leave the lad in the care of others, and they went away from the White House twice.

At 1:30 p. m. the president, accompanied by Dr. Lambert, went to Representative Longworth's residence, where they took luncheon with Mr. and Mrs. Longworth, returning to the White House at 3 o'clock. An hour later President Roosevelt and Dr. Lambert went out for a long walk.

Dr. Rixey, the family physician of the Roosevelts, called early to see Archie. On leaving he stated that Archie had passed an excellent night; that his condition was satisfactory and that he is now convalescing from the attack of diphtheria. He expressed the opinion that should no complications set in it would only be a question of a short time before Archie would again be a well boy.

TO CONFER WITH ROOSEVELT.

E. H. Harriman Will Meet the Pres-  
ident This Week.

Washington, March 11.—Chairman Knapp of the interstate commerce commission says that so far as the commission is concerned, the taking of testimony in the investigation of the Harriman lines is closed, but that the commission has under consideration the advisability of asking the United States circuit court for the Southern district of New York to compel Mr. Harriman to answer certain questions which he did not answer to the satisfaction of the commission when he was on the witness stand in New York. Pending such action Mr. Harriman's counsel asked to be heard before the commission April 4, which request was granted, and that date was recently fixed for arguments.

Chairman Knapp explained that the commission alone has power to conclude testimony in the case and that it will reserve the right, if it sees fit, to reopen the case at any time.

Harriman will have a conference with President Roosevelt next Thursday. When Mr. Harriman's counsel asked for the hearing on April 4, at which time they want to present arguments regarding the contention that the Union Pacific and Southern Pacific are parallel and competing lines, it was understood by the commission that if Mr. Harriman's counsel desired to submit additional testimony on that date they might do so and also if the commission desired to bring out any new point it would agree that any such additional testimony, if at all, would be brief. Asked if Mr. Harriman was likely to go on the stand in such event, Chairman Knapp replied that if Mr. Harriman desired to take the stand he would be permitted.

ASK WRIT OF PROHIBITION.

Ruef's Attorneys Appeal to Federal  
Supreme Court.

San Francisco, March 11.—The attorneys for Abraham Ruef are busy preparing legal advice to prevent Superior Judge Dunne from proceeding with Ruef's trial on the charge of extortion. An application to the United States supreme court asking for a writ of prohibition has been prepared and it will be forwarded to Washington.

United States District Judge de Haven is expected to render a decision on Ruef's petition for a writ of habeas corpus filed on Saturday. At 10 o'clock a. m. Ellisor W. J. Biggy has been ordered to bring Ruef into Judge Dunne's court and unless restrained by a higher court Judge Dunne will proceed with the empanelment of a jury to try Ruef. Pending his trial it is probable that the judge will readmit Ruef to bail.

Mayor Schmitt will also appear before Judge Dunne and a date will be set for his trial on five charges of extortion, to which he pleaded not guilty Thursday.

The members of the grand jury have begun an investigation into the conduct of the attorneys and friends of Abraham Ruef, to learn if they had knowledge of his whereabouts at the time they declared under oath they had no knowledge of his movements.

St. Paul Man Killed.

Lexington, Neb., March 11.—A man carrying a card bearing the name Joseph W. Willard, 280 Grove street, St. Paul, Minn., was found dead on the Union Pacific tracks near here. He had fallen from the eastbound train during the night. Coroner Birkhofer took charge of the body.

### W. B. Erect Form Corsets

are elastic, giving and yet made with every needed strength and durability. They correct the false lines that your figure possesses and intensify natural grace. A special model for each sort of figure. Prices upward from \$1.

"Michael's"

### Corsets for stout women

Women with heavy hips but an average figure need no longer experience the discomfort of a corset too large in the bust or one properly fitting at the bust but too small for the waist line. There is a new W. B. Erect Form made and meant for figures which require abdominal and hip restraint. The bust is medium but the front and hip are usually full and deep, rounding off the lines into a longer effect and giving a pronounced dip by flattening abdomen.

"Michael's"

### W. B. Nuform Corsets

will lend you a precisely proper figure. Gowns fitted over this graceful garment have a perfect set and exquisite perfection of shape. The Nuform is made on curving bias lines which follow the modeling of the human form. Built with deep gores at bust and hip so that the corset can hold firmly to the figure without inflicting strain or pressure. A special model for each sort of women. Prices range upward from \$1.00.

"Michael's"

### STREET CAR MEN OUT

STRIKE OF UNION EMPLOYEES AT  
LOUISVILLE CRIPPLES TRAF-  
FIC THERE.

NO ATTEMPT TO RUN CARS

ACTIVITY IS CONFINED TO THE  
MAIL CARS AND THE SUBUR-  
BAN LINES.

Louisville, Ky., March 11.—With the exception of the suburban lines entering the city and a few cars carrying United States mail to and from the postoffice substations, not a street car moved in Louisville. The strike of the union employees of the Louisville Railway company, which has been pending for over a week, and which was declared Saturday, became effective at 5 o'clock a. m. At that hour the "owl" cars, which had been in operation throughout the night, ceased running and none of the union men showed up at the barns to begin their day's work.

Although there were left nearly 300 employees out of a total of 1,100 who were not members of the union at the time the strike was called, and part of these showed up for work, the company made not the slightest attempt to run passenger cars. Only the postal cars bearing the signs "United States mail" were operated and sufficient force to man them was apparently procured without difficulty. The men operating them were not molested in any way. The details of police at the barns, etc., had nothing to do. Pickets were active in an inconspicuous way and at night the union leaders announced that over a fourth of the remaining nonunion employees had been won over and joined the union.

Will Not Import Strike Breakers.

The company officials denied that they had ordered a force of professional strike breakers from other cities. They stated that counting the number of individual applications on file since the strike loomed up and the number of old employees holding out from the union they would have a force sufficient to operate their main lines and would start the service promptly and maintain it. The officials would not state what percentage of the total number of cars would be operated, but intimated about one-half of them, promising a full resumption before the end of the week. The union officials maintain that the company will not be able to operate one-tenth of its cars. Neither side has

made any overtures, the company standing pat and the men declaring that their second request for arbitration sent Friday night was their last word.

The only national official of the International Street Railway Employees' union now here is President W. H. Mahon, and he has been confined to an infirmary with rheumatism for over a week.

The demands are for a ten-hour work-day, with 22 cents an hour pay, forty-five minutes for meals, pay for extra work to begin when report for duty is made, time and a half for overtime, subsequent employees to be allowed to join the union, and a board of arbitration.

HARGIS' HOME FIRED INTO.

Kentucky Judge's Residence Target  
for Unknown Marksmen.

Jackson, Ky., March 11.—Citizens of this city were startled out of their sleep at night by shooting such as has seldom been heard here. Two shots were fired into the home of Judge James Hargis, accused of complicity in connection with the assassination of James B. Marcum.

Others were fired into the store of Hargis brothers, in which June Jett, brother of Curtis Jett, was sleeping, but he was unharmed. The home of Deputy Town Marshal Smith also was hit. The firing was continued for forty minutes.

Efforts of the police were vain until they arrested Curtis Smith and placed him in jail on the charge that he was concerned in the shooting.

ALARMS FRENCH PUBLIC.

Ease With Which Electricians Threw  
Population Into Confusion.

Paris, March 11.—The city has resumed its normal aspect. All the electric plants are working.

The public is alarmed at the ease with which a few hundred workmen at the instigation of the confederation of labor are able to throw the population into confusion, and the newspapers print editorials demanding legislation which will prevent workmen engaged in supplying a public necessity from striking. It is pointed out that the electricians, now that they know their power, may not rest content with present conditions. It is pointed out as a significant fact that the strike committee is still holding meetings.

Cheaper Gas for Milwaukeee.

Milwaukeee, March 11.—The Milwaukee Gas Light company has announced a reduction of rates to an 80 per cent basis. Hitherto illuminating gas has been \$1 and fuel gas 80 cents per thousand. When used in large quantities the price for fuel gas will be 60 cents.

Peasants Plundering Estates.

Bucharest, March 11.—The agitation among the farm laborers in the Botosani district threatens to assume large proportions. The peasants are aggressive and are plundering estates and farms.

R. W. Short, who had been acting as day operator during the illness of Geo. Rice, returned to Duluth Saturday afternoon.

Get your fire insurance from Smith Bros., Sleeper Block. Telephone 174. 238tf

Mr. and Mrs. R. E. Tuttle are the happy parents of a second fine boy who arrived Saturday afternoon to make his home with them.

Mrs. E. E. Titus returned Saturday afternoon from the state of Washington, where she has been visiting her daughter since the first of June last.

For Sale, a graphophone with 70 good records, can be seen at Skauge's drug store. A bargain. 138tf

Mrs. Olaf Skauge entertained a number of the teachers of the public schools very enjoyably Saturday afternoon. A pleasant lunch was served, followed by a sleighride about the city.

Julius Deering, well known here, arrived here from Cedar Rapids, Iowa, today to visit at the home of his father, Wm. Deering. He reports himself as prospering in the Hawkeye state.

The one reliable medicine to clear the lungs, to heal the soreness in the chest, to cure La Grippe is Skauge's Neyer Cough, when all others fail. Try it. No cure no pay, at Skauge's the Laurel St. druggist. 138tf

W. D. K. Gibbs, of Hesper, N. D., and Miss Effie Sinclair, of Tower, Minn., were married in the latter place on Monday, of last week and are spending a portion of their honeymoon at the home of W. H. Bolton and other friends in this city.

Mr. and Mrs. C. B. Rowley and little daughter returned today from a six weeks visit in Dakota City and Humboldt, Iowa. C. B. states that they have had but three days sleighing this winter in that locality.

Supt. E. C. Blanchard, of the Superior division of the Northern Pacific arrived in the city today on No. 11, in his private car. The car has undergone a thorough renovation, inside and out since its last appearance here. Mr. and Mrs. Blanchard returned about a week ago from a three weeks trip through Mexico, going in the private car which is now numbered 1991. Mrs. Blanchard is with her husband on the present trip, which he says has no particular significance, being a regular inspection trip.

The growing demand for Hunt's Perfect Baking Powder is the indorsement the public gives to the high quality of this home made product.

The depot lunch counter will hereafter be open mornings and will serve hot coffee and choice lunches before both early train. 232tf

Labor Leader Dies of His Wounds.

New York, March 11.—Basilio Spermo, chairman of the grievance committee of an Italian branch of the operative plasterers' international union, who was shot at a meeting of the local society, is dead. Nicola Chiodi, secretary of the Italian branch, is held as a witness to the shooting.

Storm at Philadelphia.

Philadelphia, March 11.—A heavy snow storm, which seems to have centered along the New Jersey coast and Eastern Pennsylvania, visited this section. Snow fell continuously for fifteen hours to a depth of seven inches.

# THE RANSFORD BADLY DAMAGED

**Dangerous Fire Discovered in the New Part this Afternoon About 2 O'clock**

**HOPE TO SAVE THE BUILDING  
Firemen Working Hard and Chances Seem to be in Their Favor at this Time**

A fire alarm was turned in from the Ransford hotel at about 2 o'clock this afternoon. The entire department was called out at once but the smoke was so thick that it was almost impossible to reach the flames. Three lines of hose are playing on the flames, however, and at 3 o'clock the chances seem better for controlling the flames than at any time since it started.

The flames were discovered in a closet adjoining the private apartments of Mrs. Thos. H. Beare, and were first seen by that lady, but it is not known at this time how they originated. The fire started on the second floor and communicated to the third, but the flames were extinguished on the second floor and the firemen are fighting them in the third floor and the roof at this writing.

The loss will be many thousand dollars at best.

## HOLST'S WAREHOUSE ALSO IN FLAMES

**Fire Broke out During the Ransford Fire and it was all Ablaze when Discovered**

**WILL BE A TOTAL LOSS**

**It is not Known how Flames Originated—Fire Discovered By Switching Crew**

When the Ransford was at its worst the shrieking of an engine in the Northern Pacific yards called the attention of the populace and fire department to the fact that the machinery warehouse and elevator on East Front street, owned by W. F. Holst was wrapped in flames. A crew of men was hurried to that place but in vain. The fire had too much of a start and could not be extinguished. The plant is an entire loss.

Mary—Dark circles under the eyes indicate a sluggish circulation, torpid liver and kidneys. Exercise and Holst's Rocky Mountain Tea will make you well and beautiful. 35 cents, tea or tablets. H. P. Dunn & Co.

## CHANGES HOUSES

F. M. Beardsley has Resigned as Head Clerk for L. J. Cale and Will Work for John Carlson

F. M. Beardsley, for several months head clerk for L. J. Cale, resigned his position with that gentleman, and for the present will enter the employ of John Carlson, commencing work there Saturday, March 16th. Mr. Beardsley has proven a popular salesman while here and will be missed by the customers of the Cale department store. He has had a fine offer to return to the road for Burton, Price & Co., of New York, for whom he travelled prior to locating in Brainerd, and has also been offered a position as superintendent of a large department of the store of the Denver Dry Goods Co., but has not as yet decided what to do for a permanent occupation, but will for a time be identified with Mr. Carlson's clothing store.

This is Worth Remembering

Whenever you have a cough or cold, just remember that Foley's Honey and Tar will cure it. Do not risk your health by taking any but the genuine. It is in a yellow package. H. P. Dunn & Co. mwfdw

## A SAD CASE

Brought Son From Staples on a Stretcher Saturday and Took Him Back Home in a Coffin

A very sad case was that of the death of Arthur Clark, aged 15 years at St. Joseph's hospital yesterday evening. He was taken sick Thursday and was brought here by his parents, Mr. and Mrs. S. H. Clark, and was operated upon that same afternoon by Dr. Courtney. The case was hopeless from the first, however, and the boy died Sunday evening. The heartbroken parents took the remains back to Staples for burial this afternoon.

## FOUND HIS FAMILY DEAD.

Homesteader Returned Too Late to Save Them.

Chippewa Falls, Wis., March 8.—A letter has been received from Ole Overby, formerly a resident near here, stating that he had found his wife and four children frozen to death in their home in Ward county, N. D. He had been away for some time and during the cold spell the family ran out of fuel. Their home was fifteen miles from the nearest neighbor, and no one had visited there since the husband left. From appearances about the home the wife had burned all the available material before she surrendered to the cold.

## TELEGRAPHIC BREVITIES.

New Orleans' first immigration station was formally opened Thursday.

Judge James J. Dick, a pioneer resident of Wisconsin, is critically ill at his home at Beaver Dam.

The second annual meeting of the Western Bowling convention opened at Denver Thursday night.

Senator Don Ramon Pina, the new Spanish minister to the United States, has arrived in Washington.

Edgar E. Robinson of Oconomowoc, Wis., won the Wisconsin university oratorical contest and will represent Wisconsin in the Northern Oratorical League contest.

The DISPATCH will be delivered at your door for 40 cents per month.

## THE HEALTHY STOMACH

'We Never Know We Have a Stomach Unless Something is Wrong With It.'

When you begin to realize that you have a stomach, it means that this organ is not in good condition, and it is reminding you of the fact.

Do not feel discouraged and miserable because of the presence of indigestion. It is the best thing in the world for you if you can only see it and give the stomach proper treatment.

Change the weak stomach to a healthy one by using Mi-o-na stomach tablets. This remedy is not a mere digestive, giving only temporary relief, but a combination of remedies that actually strengthens the stomach, excite the secretion of gastric juices and enable the digestive organs to care for food you eat in a natural, normal way.

By taking a Mi-o-na tablet before each meal you can enjoy a good dinner without distress and suffering, and you will never know that you have a stomach.

H. P. Dunn & Co have sold a good many 50c boxes of Mi-o-na stomach tablets, and the more the remedy is used, the more friends it has, for every box gives satisfaction. It is sold under an absolute guarantee that the money will be refunded should Mi-o-na fail to give satisfaction. H. P. Dunn & Co., take all the risk, and the remedy will cost you nothing unless it cures.

## FOR SALE

# PROSPECTING ON CUYUNA IRON RANGE

**John L. Morrison, the Well Known  
Expert, Writes Interestingly in  
Duluth Herald**

**OTHER EXPLORATIONS MADE  
West End of Range Explored More  
Extensively Than Shown by  
Mr. Morrison**

The following resume of work on the Cuyuna range, in Crow Wing county, from the pen of John L. Morrison, than whom no better authority exists in Minnesota, appeared in the Duluth Herald on Sunday, February 23:

"How's the Cuyuna iron range?"

According to latest reliable reports, the Cuyuna iron range is in a healthy condition and possesses permanency and ample promise of profits.

Today, the Cuyuna iron range is a bit over two years old. During its short life, as high as forty drills have been at work simultaneously.

Over a year ago, an eminent iron authority declared that more ore had shown up on the Cuyuna than at Baraboo, Wis.

Reputable authorities estimate that today, the Cuyuna iron range has proven bodies of ore aggregating 100,000,000 tons. Others claim that one, if not two properties, alone, show nearly that quantity.

Firms like the Shenango Furnace company, of Sharpsville, Pa., and Pickands, Mather & Co., the great iron firm of Cleveland, Ohio, are paying royalties and holding onto the leases, even when not carrying on exploration or development work.

The Northern Pacific railway company is watching the situation like a hawk. Fees are being acquired at prices that would have given the public heart failure a year ago, to say nothing of two years ago. Drills are kept in operation and the best men that money can hire are engaged in working out the features of that ore belt.

People have wondered why the United States government never has made any geological reports on this range. They may wonder for some time to come, for the most eminent geologist and scientific authority on iron ores in the country, has left government employ.

Only a short time ago, E. K. Leith of Madison, Wis., resigned his position with the United States geological survey. It is creditably reported that he has taken a position on the geological staff of the Northern Pacific railway.

This is in line with J. J. Hill's policy of hiring the very best talent for the geological departments of his roads. He hired Prof. Horace V. Winchell away from the Amalgamated Copper company, at Butte, Mont., to serve the Great Northern railway, as chief geologist, and now Prof. C. K. Leith leaves Uncle Sam to serve the Northern Pacific in its geological department.

Dear seeker after free information, can you see through a ladder after a portion of the rungs have been knocked out?

Cuyler Adams, once an humble civil engineer and then a seeker after elusive silver and gold ores in Mexico, the United States and Canada, must be credited with discovering and establishing the existence of the Cuyuna iron

range. He also named the child of his brain and energy. By almost superhuman efforts he and a few loyal friends hustled funds in skeptical Duluth and kept the iron babe from death by inanition.

Today, Col. Cuyler Adams is traveling in historic Italy and, for aught I know, making dip needle surveys of the Roman Forum, the Appian Way or Campus Martius. Money made on the Cuyuna iron range pays his bills.

Mr. Adams and friends organized the Orelands company, with \$50,000 capitalization, 5,000 shares with \$10 per value. Then, by solicitation—urging, coaxing, begging and almost force, in some cases—about two short years ago, most of the stock was sold and the proceeds put into lands and drilling.

Only a few weeks ago, the Orelands company paid a dividend in cash and stock of \$9 a share, \$40,000 in all. The cash came from the sale of eighty acres of ore land. The company yet retains 1,000 to 1,500 acres of valuable fees. The stock is quoted at \$60 a share.

The same men organized the Mineral Range Development company and the Crow Wing company, both capitalized at \$50,000 and, today, you cannot go into the market and shake out any of this stock at a reasonable figure.

Land buyers started at a few dollars an acre, near Deerwood and wound up at Brainerd at \$125 an acre. Today, some of these lands are worth a fortune and the fee cannot be had at any price.

On this same belt, a few miles northeast of Fort Ripley station, on the Northern Pacific railroad, two drills were operated last summer. William C. White, of Duluth, was interested in one of them. I have no information as to results. Lands in that region are closely picked up and held.

Mr. Adams has a personal enterprise in section 35, 48 26, nine miles northeast of Aitkin, within a mile of the Mississippi river. Right north of Aitkin, a hole put down by the Zeno Iron company, in charge of Victor Rakowsky, penetrated several hundred feet of overburden. At Cedar lake, a few miles southeast of Aitkin, Mr. Rakowsky lost the holes and failed to reach bedrock, because of deep surface.

Mr. Adams found ore at a depth of 85 feet. He has been working there six or eight months and has at least two holes in ore. According to latest unofficial reports, the drill was in ore in the last hole, with no bottom in sight.

The Adams interests have a drill on section 30, south of Big Rabbit lake. Drilling has been under way there for over two years and an immense deposit encountered. Eighteen months ago, Mr. Adams conservatively estimated that 3,000,000 tons had been proved.

This land was optioned to the "steel trust." The royalty was high and the minimum output heavy. Mr. Adams would not permit further drilling but

required a shaft. Machinery at the Pickands-Mather shaft was secured. After installation, leaky boilers caused a delay. The shaft was started. Quick-sand caused a cave and the shaft filled up with grass, dirt and frogs. The "steel trust" then asked some concessions of Mr. Adams. He jumped into the air and exclaimed, "No, not a single concession." The "steel trust" threw up the deal.

The most notable bit of history on the Cuyuna range in the year past has been written by B. Magoffin, Jr., near Deerwood.

Backed by John G. Williams, Archie Chisholm and, possibly, Louis Hill, Mr. Magoffin secured an option on five fortyies in section 1, 46-29, at \$200 an acre, and a lease on another forty with a royalty of 10 cents a ton.

Mr. Magoffin has worked there for about eight months. Today, he has two drills in operation. He has drilled nine holes in all, every one of which shows from 100 to 800 feet of ore.

One hole was put down 892 feet. At that depth, the drill was still in ore. The surface was only 85 feet deep, giving, therefore, 807 feet of iron ore and the full depth unknown as the drill lacked power to go deeper. In this hole 200 feet of ore averaged 55 per cent in iron, but rather high in phosphorus.

Another hole bottoms in ore at a depth of 710 feet and still another in ore at a depth of 735 feet. All of the nine holes were put down without a casing. It is claimed that, had the holes been cased, the assays of the ores would have been several per cent better. The tonnage likely to be shown up there is something astounding. For depth and extent, nothing like it has been found in Minnesota.

Mr. Magoffin will continue drilling and it is stated that the lands under option will be paid for at the required price of \$200 an acre. They are not so very far from Serpent lake, and show very little magnetic attraction.

George H. Crosby, the plumed knight of Duluth promoters, was very prominent and aggressive on the Cuyuna range for many months. While he retains interests there, he has done no work for nearly a year. About a year ago, most of his holdings were turned over to the Zeno Iron company, supposed to be a blood relation to the Zenith Furnace company of West Duluth. After a few months of work at several points, work was suspended.

Mr. Crosby and associates have purchased eighty acres of the famous Ehrich property, on the south side of Big Rabbit lake, the south half of the southwest quarter of section 29-47-28. A deed recently filed at Brainerd shows that the fee has gone to George H. Crosby, Leon E. Lum and William Harrison for \$15,000.

Mr. Crosby's original option embraced other Ehrich lands at a total price of \$40,000, but I am informed that an extension of time has been secured on the lands in Sec. 32.

Mr. Crosby has implicit faith in the merits of the Ehrich property and his estimate of millions and millions of tons is something almost incredible.

The Northern Pacific railway is very active and aggressive on the Cuyuna range. Only a few months ago, this corporation purchased from the Orelands company the fee to the west half of the northwest quarter of section 21-46-28, for a cash consideration of \$37,500. This price was based on an estimate of 750,000 tons of ore, at 5 cents a ton.

The ore body on that property is about 150 feet wide and has a slight dip. Since making the purchase, I understand the Northern Pacific road has proved up a much larger quantity of ore.

This company still keeps up drilling in section 36, 46-29 and in section 3, 45-29. These lands are held by lease from the Cuyler Adams interests and drilling has been in progress for nearly two years. On section 3, especially, some very fine ore has been encountered.

The Northern Pacific railroad interests have many things in prospect that are not announced to the public.

Pickands, Mather & Co. are paying royalties steadily on lands in sections 3 and 10, 45-29; also the lands in section 8, same township, where the first and only shaft on the Cuyuna range was sunk.

The Shenango Furnace company is paying royalty on lands held under a lease from Cuyler Adams, five fortyies, in section 22, 45-30.

Over a year ago, Mr. Adams planned a trip to South America, via London, England. When he got to New York, long distance telephone communication was had between him and the Shenango representative. The latter was experiencing a slight attack of cold feet. Mr. Adams, in response to evidences of that chilliness, replied that word had been given to carry out a certain deal, therefore he expected his money. Thereupon

a check for \$12,500 advance royalty was sent him.

The Shenango interests have extensive fee holdings in 46-29 and 47-29, which cannot be purchased at any price.

To show something as to prices paid along this south belt, a year ago Peterson Brothers deeded the southeast quarter of section 9, 45-29, to W. J. Schwab, Jim Elder, C. Abeles, Herman Abeles and G. A. Henneman, for \$12,500. E. J. Longyear drilled the land on a lease bearing 20 cents a ton royalty. He offered to take it at 15 cents a ton and, when that was refused, threw up the lease.

Up in 47-29, on the Flynn land, in section 28, and the King land, in section 27, Franklin W. Merritt is running a couple of drills. He started there last fall with churn drills. At a depth of about 100 feet low grade ore was encountered and diamond drilling became necessary. After annoying delays, diamond attachments were secured and work is moving along smoothly now. Surface ore run about 20 per cent in iron, but Mr. Merritt is reported as saying recently that he has holes showing 200 feet of 60 per cent ore. If so, he has broken the record for the entire range.

The Flynn land was secured under a lease carrying a royalty of 20 cents a ton. The deal called for \$1,000 cash and \$5,000 in advance royalties at the end of one year. The King land was secured on a lease and royalty basis.

Mr. Merritt is backed by Hal P. Watson, a noted Minneapolis grain merchant; C. C. Prindle, well known in Duluth commercial circles and on the Mesaba range; and Henry T. Little, a Minneapolis capitalist.

In addition to those lands, Mr. Merritt is associated in various holdings with John McAlpine, a Duluth lumberman; John C. Campbell, a Cloquet lumberman; Dr. Dolan, of Cloquet; Judge Middlecoff, Sheriff Bates, Andy Gowan, John Buckley, and others of Duluth. It is reported, also, that Mr. Merritt is interesting a new bunch of Minneapolis investors in Cuyuna range lands.

On the northeast quarter of section 1, 46-29, Yawkey of Detroit, has been drilling on land belonging to C. A. Gustafson. An option for the fee at a price of \$16,000, expires in April next. Considerable drilling has been done and some of the holes have been shown. William Blackwood of Deerwood, interested Mr. Yawkey in this deal and is local representative.

As stated, the "steel trust" has dropped a good many options on the Cuyuna range. Capt. Carl Neumann induced the big corporation to take in the west half of the southeast of section 32, 45-30 belonging to Peterson, a Brainerd butcher. An extension was asked, refused, and the "steel trust" threw up the option. Through B. Magoffin, Jr., A. M. Miller, Jr., of Duluth, at once snapped up the land at \$100 an acre, cash.

The "steel trust" has three or four drills at work on other lands in that locality.

I almost forgot to state that the Federal Iron company, embracing Messrs. Quinn, Brotherton, et al. are drilling on the east side of section 31, 47-28, where work was started a year ago. While I have no details concerning results, I do know that a good body of ore has been encountered.

In addition to the above, which is accurate so far as it goes, there has been much work done in the western, or rather southwestern, end of the range of which Mr. Morrison fails to make mention. The line of attraction enters Crow Wing county at the northeast corner of township 46, range 28, and traverses the entire width of the county in a southwesterly direction to the southwest corner of the county. Near the village of Deerwood the line of attraction forks, one line running almost parallel and close to the line of the Northern Pacific, and the other running in the same direction and running about a mile south of the north line. On both lines there has been considerable drilling with satisfactory results.

The most westerly explorations made on the north line of attraction are those of the Brainerd Mining company which owns in fee simple lands in sections 15 and 16, township 44, range 31 (town of Crow Wing). These explorations are said to show good results, the option on the lands having been closed after the drilling had commenced. The company has also purchased lands in sections 10 and 11 in the same town. These latter lands are within two miles of the city of Brainerd.

On the south line of attraction the explorations farthest west are those of the steel trust, on section 5, 44-30. The results of the drilling on this section is unknown. On 32-45-30, just across the road north, the same concern has had drills at work for several months and the W $\frac{1}{2}$  of the SE $\frac{1}{4}$  of this section has been purchased at \$100 an acre. This land is situated within 2 $\frac{1}{2}$  miles of the city of Brainerd. Section 28, 45-30 has also been drilled by the same concern with results which have not been divulged. The SW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of 30-45-30, located within the city limits of Brainerd has been purchased for \$5,000 cash. Section 21, 45-30 has been drilled by the Oliver Mining Co., another of the development concerns of the United

States Steel corporation. The Shenango Furnace company is paying heavy royalties on land in 22-45-30, within four miles of Brainerd. Sections 9-45-29 and 14-45-30 have been mined by the Long-year people, results unknown.

One Crow Wing county farmer is drawing royalties in an amount equal to good interest on \$25,000, while another is drawing an equivalent of the interest on \$8,000.

That the range has a future of great magnitude is shown by the buying of land on the Cuyuna range in Crow Wing county by such concerns as the Shenango Furnace company, the Federal Iron company, John McAlpine, White-side & Richardson, Meyer Brothers Hartly & Crosby, Dave Adams and W. E. Crosby, Cuyler Adams, John J. Williams and Archie Chisholm, Zeno Iron company, Pickands & Mather, W. D. Washburn, Jr., and others, all of whom own land within 15 miles of Brainerd.

Wm. Quinn, general manager of the Federal Mining company, one of the exploration companies auxiliary to the steel trust, said in a recent interview in Duluth:

"Active operations on the Cuyuna range are being steadily discontinued."

"Last year over 50 diamond drills were in operation daily, and now there are less than half that number. The territory has been pretty well explored, and those interested in the proposition know exactly what there is in the ground."

"Large quantities of iron ore have been located at various depths, but it will not pay to mine it at present. In a few years, however, it will be worth considerable money. When the demand becomes pressing, or when smelting plants have been located on the ground or in this state, the holder will begin to take out the ore."

"A short time ago the Northern Pacific people bought a large quantity from Cuyler Adams, who has been one of the chief promoters of the Cuyuna range. They paid about \$40,000 for it. It is evidently their intention to hold it for future development, because they are doing nothing with it now, and it does not look as though they intended to start any active operations for some time."

"I expect to see the Cuyuna range booming within but a very few years. Minnesota is growing rapidly, and with its development I think that the iron companies will build furnaces and iron industries at the head of the lakes, and then it will be possible to mine this low grade ore to advantage."

**The Odd Fellows**

Charles Hagberg, one of the oldest residents of Brainerd, died Sunday morning, March 10, 1907, at 6 o'clock after an illness of several months. The funeral will take at the First Congregational church at 2:30 Wednesday afternoon, under the auspices of the Odd Fellows, Rev. E. A. Allin preaching the sermon.

Charles Hagberg was born in Wexio, Sweden, October 24, 1846, and came to America in the spring of 1872, coming direct to Brainerd, which place has ever since been his home. When he arrived here there was no Brainerd, only a few small shacks hardly worthy the name of houses having been erected at that time. Mr. Hagberg went to work at once for the Northern Pacific railroad company and continued in the employ of that corporation for over 25 years, until failing health compelled him to retire from active labor.

Mr. Hagberg was married in Brainerd December 9th, 1873, to Miss Hannah Johanson, who survives him. To them were born four sons and three daughters all of whom have gone on before except one son C. O. Hagberg, of this city. He also leaves a sister, Mrs. Wm. Gustafson, of this city, and a brother, Wm. Hagberg, of Coal Harbor, N. D., and two young children, Norma and Russell Hagberg, children of Mr. and Mrs. C. O. Hagberg, also several nephews and nieces in this city.

The deceased was a member of Unity Lodge, I. O. O. F., of Rushworth Encampment, I. O. O. F., and of Brainerd lodge A. O. U. W. Mr. Hagberg was a man who always stood high in the community and served for 13 years on the board of education in this city, being for six years president of that body. About 16 years ago Mr. Hagberg received a paralytic stroke and was laid up for some time, but finally recovered sufficiently to resume work for the Northern Pacific as a machinist and served in that capacity until six years ago when he was compelled to undergo the amputation of a limb, since which time he has been unable to perform manual labor. On June 8th last he received another stroke from the effects of which he has since been nearly helpless.

**\$100 Reward, \$100**  
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co., Toledo, O. Sold by all druggists. Take Hall's Family Pills for constipation.

## Do You Like Honest, Square Dealing?

Dr. Pierce's world-famed medicines are put out under the belief that publicity is the best possible guaranty of merit, and that the most intelligent people generally want to know what they take into their stomachs, whether it be as food, drink or medicine. Although it was a bold step to take, and quite out of the usual practice of makers of proprietary medicines, yet Dr. Pierce, some time ago, decided to publish broadcast and on all his bottle-wrappers all the ingredients entering into the composition, or make-up, of his celebrated family medicines. A square deal is therefore assured every one using his medicines, for one knows exactly what he or she is paying for when purchasing them, since every ingredient is published in plain English on the bottle-wrappers and the correctness of the same attested under solemn oath. These several ingredients are selected from among the very best known to medical science for the cure of the various diseases for which these medicines are recommended.

The most eminent and leading medical teachers and writers of all the several schools of practice have endorsed each of the ingredients entering into Dr. Pierce's medicines in the strongest possible terms. The makers of Dr. Pierce's medicines believe that intelligent people do not wish to open their mouths like a lot of young birds, and gulp down whatever is presented to them, either in the way of food, drink or medicine, without knowing something of the properties and harmful character of the agents employed. They believe that health is too sacred a heritage to be experimented with, and that people should not take medicines of the composition of which they are kept in ignorance. Dr. Pierce's medicines are made wholly from the roots of plants found growing in the depths of our American forests. They are so compounded that they cannot do harm in any case, even to the most delicate woman or child. By open publicity Dr. Pierce has taken his medicines out of the list of secret nostrums, of doubtful merit, and made them remedies of known composition. They are therefore, in a class all by themselves, being absolutely and in every sense non-secret.

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny.

There is a badge of honesty on every bottle of Dr. Pierce's medicines in the full list of its ingredients duly attested as correct under solemn oath.

No other medicines put up for general use through druggists can make claim to any such distinction, and none other than Dr. Pierce's medicines have any such professional endorsement of their ingredients. Such professional endorsement should have far more weight with the afflicted than any amount of lay, or non-professional, endorsement, or testimonials.

Of course, the exact proportion of each ingredient used in Dr. Pierce's medicines as well as the working formula or manner of preparing the same, and the specially devised apparatus and appliances employed in their manufacture, are withheld from publicity that Dr. Pierce's proprietary rights may be fully protected from such unprincipled imitators as might be piratically inclined.

The preparation of these medicines without the use of a drop of alcohol, so

generally employed and yet so harmful, in the long run, to most invalids when its use is long continued, even in small doses, cost Dr. Pierce several years of careful study and labor, with the aid of skilled pharmacists and chemists to assist him. Naturally, he does not care to give away his scientific and exact processes for preparing these medicines, but he does want to deal in the most open manner with all his patrons and patients, and under this frank, open and honest way of dealing, they may know exactly what they are taking when using his medicines.

**What Do They Cure?** This question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription."

The answer is that "Golden Medical Discovery" is a most potent alternative or blood-purifier, and tonic or invigorator, and acts especially favorably in a curative and healing way upon all the mucous lining surfaces of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large percentage of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels (as mucous diarrhea), bladder, uterus or other pelvic organs. Even in the chronic or ulcerative stages of these affections, it is often successful in effecting cures.

The "Favorite Prescription" is advised for the cure of one class of diseases only—those peculiar weaknesses, derangements and irregularities incident to women. It is a powerful yet gently acting invigorating tonic and strengthening nerve. For weak, worn-out, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

Women suffering from diseases of long standing, are invited to consult Doctor Pierce by letter, free. All correspondence is held as strictly private and sincerely confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (1000 pages) is sent free on receipt of 21 cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address as above.

## AGRICULTURAL RESOURCES GREAT

Crow Wing County Can Show Results in that Line that Cannot be Beat

### BEST VEGETABLES GROWN

In Clover and Timothy she is Unsurpassed by any County in the State

Crow Wing county is great in her undeveloped mineral wealth, but she is still wealthier in the possibilities of her productive soil and her excellent climate for the production of the most valuable of farm products. Her farming industry is yet in its infancy, less than ten per cent of her tillable land being opened up, so that the aggregate of her productions will fall below that of the prairie counties. But acre for acre she has the far famed Red River valley put completely in the shade. One of the large farms in Crow Wing county raised 110 acres of timothy and clover in 1906 which averaged three tons per acre and netted the owner \$10 a ton. What county in the state can make a better showing? Clover grows luxuriantly here and always demands a good price. A farmer living east of Brainerd last fall brought to town a single load of clover seed which netted him \$150. It is only the past year that there has been a machine in Crow Wing county to hull clover and the experience of those who threshed their clover last fall has encouraged many more to seed land to that crop. It is not necessary, in many instances to seed the pastures to clover as the plan seems to take so naturally to the soil and climate that it springs up in the woods whenever the land is protected from fire.

Stock carrots and rutabagas thrive here in a way that makes them almost seem native to the soil. J. M. Elder reports the raising of 15 tons of roots to the acre last year and is still feeding them to his stock. He has a stock barn in which the stalls are arranged around the sides, facing the center. In this center the roots are heaped in great piles and the heat of the animals has protected the roots from frost all winter. As a dairy country this cannot be excelled, butter seldom, if ever, going below 15 cents a pound for ordinary stock, while fine creamery and choice dairy butter is readily picked for the local market at from 20 to 35 cents per pound. The county has five creameries, one of which, located at Brainerd, is run the year around and all are having a constantly increasing business. The dairy stock of the county is increasing in efficiency, having been graded up from the scrub cattle brought here by the pioneer homesteaders. As the old settlers are becoming more forehanded, and as more and more farmers with good stock and more capital are coming in, the dairy business is getting to be one of the leading industries of the county. The improvement in the cattle of the county in the past three years is only excelled by that of the horses. Year by year the increased prosperity of the farmers is evidenced by the improvement in the appearance of the equipages in which they come to the city to do their marketing and purchase their supplies.

A grocer made a statement a few months ago that it is becoming a rare thing now for a farmer to ask credit. He always has a little money from some source or other.

As a sheep country Crow Wing county has yet much room to grow, but if the indications are not misleading she will have many more flocks in a few years. As a sample of the profit, J. M. Elder took 67 scrub sheep in a trade in November 1905. In November 1906 he had netted \$420.80 in cash from the flock and still had 53 of the best ewes left. He states that this fall nearly every ewe produced twin lambs. Another flock, which was left without care, shelter, or feed of any kind, on a ranch in the town of Daggett Brook last fall lived during the worst of the winter, up to February first, subsisting solely on what it could browse and what it could dig from under the snow and came through without the loss of a head. The sheep are also said to prove a valuable adjunct in clearing land as they soon get all the underbrush cleared out so that tame grass can be sown and a fine pasture made with practically no expense.

Two bushels of oats per head, with good clover hay winters a sheep in fine shape here and they will become too fat even for mutton on native pasture, some of Mr. Elder's lambs weighing 126 pounds at six months old.

Crow Wing county is usually considered far north of the corn belt, yet many fields averaged 40 bushels per acre last year and fifteen tons of corn fodder, from sowed corn, has been put up from one acre of land. One farmer, who has made a good living for himself and family for years says that 20 acres of cleared land is sufficient, if properly cropped, to support a family. With an entire eighty cleared a man can keep a good sized herd of stock and support his family and lay aside a good sum yearly.

It is true that there is not in Crow

Wing county the chance to open up a large farm and clear up a big sum of money in one year that there is in a prairie country, neither is there the risk to run of losing the entire investment and finding one's self head over heels in debt as the result of one year's crop failure.

In the matter of a market Crow Wing county is well situated. Only a little over 100 miles from Duluth and the twin cities she will always have a convenient market for the surplus, but with the development of the mining industry and the increase in the railroad shops in Brainerd, which is so confidently predicted, it bids fair to be many years before there is much surplus to ship.

There is no place in the United States where the man with a small pocketbook and a large family can do so well as right here in Crow Wing county. There is work for all. The shops are at almost all times eager to get good men, while the demand for competent domestic, and even raw girls who are willing and teachable, has never been filled here. The same can be said of teachers. There is an abundance of fuel for all and no expense to the farmer except that of cutting and hauling. The water throughout almost the entire county is fine and the climate healthful in the extreme. Less than five per cent of the deaths in Crow Wing county last year were from tuberculosis, and a part of these were invalids who came here in the vain hope of benefit.

The winters are cold, but dry, the weather being much easier to withstand than the damp, penetrating winds of Iowa and southern Minnesota.

Land can be bought from \$5 per acre upwards and on almost any terms desired by actual residents. All parties considering a change of location should investigate this county. All communications to the secretary of the Brainerd Commercial club will receive prompt attention.

## FEEL EVERY CHANGE OF THE WEATHER.

A Bad Back is Always Worse During Wet or Changeable Weather.

Is your back like a barometer? Does it foretell every change of weather? Does every cold settle on your kidneys?

Bring aching, throbbing pains? Does it disorder the urine? The kidneys are calling for help. Use Doan's Kidney Pills. Guaranteed by Brainerd testimony.

Mrs. J. A. Johnson, living at 611 10th St., S. Brainerd, Minn., says: "My husband's work brings a constant severe strain on the muscles of the back and it recently caused an attack of kidney trouble that became worse whenever he took cold. He suffered from backache and was lame and so that it was hard to straighten up or over to move about. There was also an irregular action of the kidneys. Seeing Doan's Kidney Pills advertised he got a box at H. P. Dunn & Co.'s and the treatment proved most beneficial, corrected the kidney trouble and removed the pain and lameness. I also used Doan's Kidney Pills myself, with the gratifying results. They certainly act quickly and surely."

For sale by all druggists. Price 50 cents. Foster Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name—Doan's—and take no other.

### Special Meeting

The Trades & Labor Assembly will hold a special meeting on Tuesday evening, March 12th, '07. All delegates are requested to be present, as important business is to be transacted.

MARTIN FREEMAN, Rec. Sec'y.

### Given up to Die

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." Why not let it help you? H. P. Dunn & Co. mddw

### FIRE AT MOBILE.

Two Buildings Gutted and Adjoining Property Damaged.

Mobile, Ala., March 11.—Shortly before 1 o'clock a. m. fire broke out in a cafe on lower Dauphin street and soon enveloped a three-story building in that part of the block. The fire communicated to other buildings and drove the guests out of the St. Andrew's hotel. The firemen made a hard fight and at 1:30 a. m. it appeared that the fire was under control. A fresh breeze that sprang up, however, caused fear that a serious conflagration was still possible.

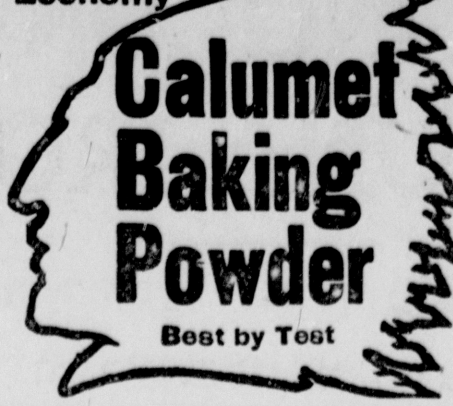

The fire was later got under control with two three-story buildings on lower Dauphin street gutted and slight damage to adjoining buildings. The rear of the St. Andrew's hotel caught fire, but the flames were extinguished. Loss, \$50,000.

### BUSINESS BLOCK BURNED.

Fire Causes Heavy Property Loss at East Chicago, Ind.

Hammond, Ind., March 11.—An entire business block of East Chicago, Ind., a small town near here, was destroyed by fire, entailing a loss of \$100,000. In the block were the Morrell Wholesale Fruit company, the First National bank, the telephone exchange and a saloon. Several persons narrowly escaped death.

### Health—Economy

### VERDICT FOR DEFENDANTS.

Test Case Against Millmen Ends Abruptly.

Greensboro, N. C., March 8.—The trial of the test case against the Charlotte millmen who were sued by the government for \$71,000 in penalties for alleged violations of the Immigration laws, ended abruptly in United States circuit court when, upon the motion of counsel for the government, the jury was instructed to bring in a verdict in favor of the defendants. The defendants were: Edward A. Smith, president of three cotton mills at Charlotte; Sumner D. Sargent, manager of the D. A. Thompsons company; E. C. Dwells, secretary and treasurer of the mills of which Mr. Smith is president, and Thomas M. Costello, immigration agent. The latter could not be found after the cases were instituted.

It was alleged in the complaints that the cotton mill owners employed Costello to go to England to hire laborers for the mills and that in pursuance of this agreement Costello went and by promise, contracts and agreements, secured the consent of the aliens to come to America. It was also alleged that Costello prepaid their passage and gave them "show" money. There were seventy-one of the aliens who came to America to work in the mills in and around Charlotte.

The defendants offered as a defense that Costello exceeded his authority as agent and Judge Boyd held that the government must show that the defendants shared in the unlawful purpose with Costello. The defendants also contended that as there was not skilled labor of a like kind unemployed in this country they were not amenable to the law.

### BAD FIRE AT KALMAZOO.

Valuable Property Destroyed and Two Lives May Have Been Lost.

Kalamazoo, Mich., March 8.—Fire which started in the Empire restaurant destroyed the restaurant, damaged the Star Novelty store to an extent of \$60,000 and for a time threatened the destruction of the Burdick hotel. Two women were overcome by smoke.

At 1 a. m. it was reported that Nora Spouse and Nannie Kraus, chambermaids in the Burdick hotel, were missing. The fire at 1 o'clock was under control. It is estimated that the loss on the buildings occupied by the restaurant and the store will be \$20,000 making a total loss of \$85,000.

### A Powerful Salve.

A man in Nebraska invented a new powerful double acting salve which shows powers never before exhibited by salves of any kind. The inventor accidentally cut off the tail of a tame wolf, and immediately applying some of the salve to the stump, a new tail grew out. Then, picking up the old tail, he applied some of the salve to the raw end of that, and a wolf grew out, but he was a wild wolf and had to be shot.—Chicago Tribune.

## Thin Blood Makes a Weak Body.

But You Can Enrich the Blood and Send New Vigor Through the System by Using Dr. A. W. Chase's Nerve Pills.

Every nerve and every muscle of the body depends on the blood for nourishment. Thin, watery blood makes weak nerves and flabby muscles. The heart fails in its work of forcing blood through the body; the lungs, the stomach, the liver, kidneys and bowels all do their work in an imperfect way, and you drag about weak, tired and miserable.

The use of Dr. A. W. Chase's Nerve Pills make a radical change in every human system that is starved and impoverished for want of rich, pure and life-sustaining blood.

Gradually, certainly and naturally they instill new vigor into every nook and corner of the body, restore health and vitality, and put a new joy into life.

Note your increase in weight while using Dr. A. W. Chase's Nerve Pills; 50 cents a box, at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

### TELEGRAPHIC BREVITIES.

Former President Grover Cleveland has left Princeton for a trip of a fortnight to Georgetown, S. C.

Demanding an increase of pay from \$4 to \$4.50 per day, all the tinsmiths at work on buildings for the Jamestown exposition have gone on strike.

Dr. Karl Heinrich von Boettcher is dead at Berlin. He was born in 1832 and served as German minister of the interior under Bismarck.

Struck on the back of the head by a descending elevator, Roger Chesbro, eighteen years old, was probably fatally injured in Minneapolis.

Leslie M. Shaw, whose resignation as secretary of the treasury went into effect on Monday, has taken up his duties as president of the Carnegie Trust company of New York city.

### WOMEN BULLFIGHTERS HURT

Five of Them Injured at Farewell Performance.

El Paso, Tex., March 11.—All five of the women bullfighters whose farewell appearance in the ring was the attraction at the Juarez Plaza del Torres in the afternoon were injured by being gored or tossed by the bulls. Only one, however, was seriously injured, Senorita Herrera, but her injuries were not fatal. Five thousand persons witnessed the contest.

It is true that there is not in Crow
